ABOUT US

GoGeomatics Canada is your gateway to the Canadian Geomatics community. We are the most popular magazine in Canada's geospatial sector for geospatial news, events, jobs, community engagement, and communications. Hundreds of Canadian geomatics organizations post their jobs, news, and events on GoGeomatics Canada. We have published over 2,000 Canadian geomatics articles, and our Canadian Spatial Times newsletter has 6,000+ subscribers. Geolgnite is the premier brand for "Geo" leadership and Trade Show events in Canada. Organized and hosted by GoGeomatics, we are the platform for sharing ideas, engaging the sector, business development, and sustaining and growing the community.

OUR IN PERSON EVENTS

The GoGeomatics Calgary Expo, November 7-8, 2023

The GoGeomatics Expo 2023 is being planned by GoGeomatics Canada in consultation with our industry, academia, association, and media partners. This new expo is the first Geomatics Technology Exposition and is distinctive to the Northern America Geo sector.

Geolgnite, May 14-15, 2024

Canada's national geospatial leadership conference returns in 2024. This event brings together senior members of the government, business executives, and thought leaders in the IT and location technology sectors in our nation's capital.

OUR VIRTUAL EVENTS

Lidar CANEX, April 25-26, 2023

The Canadian Lidar Commercial Expo is a B2B event matching reality capture lidar vendors with practicing 3D professionals from Canada and beyond.

Geo Tech Training, May 1-5, 2023

Geo Tech Training offers a wide variety of training opportunities built on current standards led by leading industry experts. We help our students upgrade their knowledge and skill set.

Subsurface Utility Mapping Strategy Forum, May 16-18, 2023

The SUMSF conference brings together individuals and organizations to share information about and contribute to improving the mapping of underground infrastructure. Founded by Geoff Zeiss, the conference continues his work.

EOCANEX, June 20-21, 2023

The Canadian Earth Observation Expo brings together the data and service providers in remote sensing. This Geolgnite event is widely recognized as the must-attend event for top-level players in EO.
