**GOGEOMATICS**  
CANADA

# Geolgnite: “Winter Geo” Canada’s National Geospatial Conference 2022

---

Geolgnite invites the geospatial community to collaborate by sharing their work, services, and data during Canada’s National Geospatial Conference. On March 1st and 2nd 2022. Geolgnite will assemble the largest online audience of Canadian geospatial practitioners, managers, senior executives, and enthusiasts for your organisation to communicate and engage.

Geolgnite was founded in 2019 in Ottawa, Canada and quickly grew to be Canada’s largest and most popular geospatial event. In its fourth year, it will organize community and industry collaboration for over 7 days of presentations, fireside chats workshops, trainings, discussions, and innovative programming.

Last year, Geolgnite inaugurated the first workshop week of events for the geospatial and geo-related sector. This year, we promise that our workshop week will be just as diverse and engaging.

Once again, Geolgnite will be virtual in 2022, allowing the audience to expand exponentially.

Our event is free and open to the Canadian geospatial community through the support from our sector partners like you.

---

## *How to make the most of Winter Geo*

Geolgnite has proven to be the largest and most popular platform to communicate and engage with the Canadian geospatial sector.

The industry has provided updates on new service offerings, in addition to advancements in hardware, software, data, analytical tools, industry trends and thought leadership.

All levels of government as well as the non-profit / NGO sector have taken the opportunity to update stakeholders and the community in general on their activities and the value they bring to citizens.

---

## *Geolgnite Winter Geo 2022*

- Main Conference March 1st & 2<sup>nd</sup>, 2022
- Workshops March 3rd to the 9th
- Canada’s National Geospatial Event
- Largest Geospatial event in Canada
- Attendance is free for the entire Canadian geospatial community through the support of our sponsors and presenting partners

2 Email Blast to GoGeomatics Email List (CAD \$3,200 Value)			
2-3 Mins of Video Content - Before & After Presentation & 7+ Times in Commercial Breaks			
10 Slides of Content (Text & Graphics Only) for Commercial Breaks			
4 Spotlight Articles (Provided by you) for GoGeomatics Magazine Articles & Spatial Times Newsletter (CAD \$2,200 Value)			
Banner (Provided by you) on GoGeomatics Website or Canadian Spatial Times For 6 Months (CAD \$725 - \$850 Value)			
Workshop/Deep Dive/Training/User Event/Etc (CAD \$2,000 Value)			

# Workshop Week Participation Packages March 3-9<sup>th</sup>

WORKSHOP WEEK PARTICIPATION PACKAGE	Workshop Week March 3rd - 9th	
	SELF HOSTED PACKAGE	
Cost Not Including Tax (Organizations Outside of Canada are Exempt)	Early Bird CAD \$1,500	After Jan 15th CAD \$2,000
Self Hosted Engagement Opportunity		
Email Contact List of Registrants		
Your Event Listed in Conference Schedule & Graphics to Support Promotion		
1 Spotlight Article (Provided by you) GoGeomatics Magazine Article & Spatial Times Newsletter (CAD \$550 Value)		
Creation of Social Media Graphics Promoting your Self Hosted Event		
Social Media Promotion of Participation in Conference		
Mention in Geolgnite Communications		
Marketing of your Event as Part of Geolgnite		

There's over a week of online learning and engagement opportunities your organization can utilize to engage the Canadian Geospatial Sector with your knowledge and expertise. This is an opportunity to engage in long form content. Unlike the 30-minute presentations in the main conference, you can create your own program that suits your goals. Take 1 hour or 3 hours. The length and format are yours to customize to your needs and that of your audience.

Winter Geo will enable you to host your engagement on whatever platform you are working with. Whether by Zoom or Microsoft Teams or another platform. Geolgnite will market your opportunity to the conference audience across all our channels and create a unique week of learning and engagement opportunities.

## What Workshop Week Format Works for Your Organisation?

Depending on your needs and goals, this is a flexible engagement where you can provide:

- **Deep Dives:** Take potential customers into a focused engagement showcasing your services, software, hardware, or projects.
- **Case Studies or Workshops:** An online workshop can be defined as a course made available on a digital platform to provide specific knowledge through videos, text, images and infographics.
- **Training Sessions or User group Meetings:** Online training sessions are a form of instruction that take place completely virtually.

# Benefit Description of Participation & Sponsorship

---

## *Spotlight Articles Posted on the Online Magazine and the Canadian Spatial Times*

Spotlight articles are provided by you to the conference. You can use this opportunity to highlight your upcoming presentation to the conference or on any other topic useful to you.

Spotlight graphics are also created for social media to promote your spotlight article.

Here are three examples of spotlight articles from 2021.

[First Example](#) [Second example](#) [Third Example](#)

### *Published on:*

GoGeomatics Online Magazine - 20K page views a month

Canadian Spatial Times - 4K+ subscribers

GoGeomatics Twitter - 10.5K followers

GoGeomatics Facebook - 2K Likes

GoGeomatics LinkedIn Group - 5.6K members

### *Post-Event YouTube Videos & Articles*

After the event, your presentation is edited to include your Live Q&A time slot. In addition to posting the video at the conclusion of the event, we write a short piece on your presentation and publish it along with the video on the GoGeomatics Magazine and the Canadian Spatial Times newsletter.

### *Email blast to Winter Geo Participants (registrants)*

You provide us with special messaging to send to the conference participants a week before the start of the event.

### *Email Blast from GoGeomatics Subscribers*

We have over 2,500+ Mailchimp subscribers in the geospatial community who have opted in to receive news and information from GoGeomatics Canada.

### *Banner Advertising on GoGeomatics Magazine Online*

Enhance your marketing and branding efforts for 6 months. As a Geolgnite sponsor we are offering you a banner ad which can be proudly displayed in the online magazine that is followed by a large variety of people in the sector.

## Canadian Spatial Times Newsletter Banner

Enhance your marketing and branding efforts for 6 months. As a Geolgnite sponsor we are offering you a banner ad which can be proudly displayed in Canadian Spatial Times newsletter that is followed by a large variety of people in the sector. This newsletter is sent to over 2K people in the industry.

## Messaging Content for Breaks

During the breaks, we will play your special messaging. The number of messaging slots depends on your participation package level. You can see an example, the break, and the messages provided as slides [See example here.](#)

## Your Video for Breaks

Sponsors have prime opportunities to place digital video content during the breaks. Each talk is separated by a 15-minute break where we play a video with special messaging like your commercial content or messaging. [See example here.](#)

## Video Editing

Our video editor will take your presentation video and optimize the sound quality and trim the start and end of the presentation. As well add video “bumpers” for your talk adding professional transitions and music. You can see the editing at the start and end of the video below. [Example 1](#)

## Conference Website Graphics Speaker Cards

The Geolgnite marketing team creates professional speaker cards to include in our conference materials as for all our presentations. Examples below:

Workshop Card

Speaker Card

Panel Card

### Social Media Graphics for You

Every participation package includes the creation social media graphics appropriate for use on LinkedIn, Twitter, and Facebook. (Examples of social media graphics below). With the title of your talk, a logo and a headshot of your speaker we provide you the social media collateral to promote your participation in the conference.

# Promotional Partnerships with Media & Associations, Conferences, Colleges & Universities

Starting in 2019 with the inaugural Geolgnite, GoGeomatics has created soft media and association partnerships with organisation inside and outside of Canada. These relationships enable us to promote your brand and participation to a much wider audience than others. We offer these organisations brand recognition before, during and after the event. In exchange they promote our conference on their social media channels, memberships, and communities. Using this win-win approach has develop Geolgnite into the largest and most successful event in Canada.

# Additional Graphic Design, Video Editing & Writing Services

---

## *GoGeomatics Contract Services if Needed*

### *Writing Services*

GoGeomatics is pleased to offer our writing service for your spotlight articles and more. We can help you tell your stories in a variety of formats including. Conference partners and sponsors get a discount on our services:

- **White Papers** – Educate the industry through white papers.
- **Success Stories / Case Studies** – Showcase your unique services and success in a specific technical/business area to prospects.
- **Articles** -- Transform your rough ideas/notes into quality hardcopy/web articles.
- **Spotlight Posts** -- Highlight your achievements, educate the industry, announce events, etc. as blog posts.

### *Graphic Design Services*

Our Graphic Designer can produce high quality graphics for you on demand. Conference partners and sponsors get a discount on our graphic design services. Please enquire for rate.

- Logos and branded elements
- Social media graphics & digital marketing ads
- Email marketing graphics

## We Market Your Brand and Content

---

GoGeomatics is the premier communications hub in the Canada geospatial sector. Your participation and your brand will be promoted through GoGeomatics channels such as:

[GoGeomatics Magazine](#) (18,455 visitors a month)

Canadian Spatial Times – (2,500 subscribers) [here](#)

[GoGeomatics Facebook page](#) (2,011 likes)  
[Canadian GIS & Geomatics](#) (5,270 likes)  
[GIS-Jobs](#) (3,499 followers)

[GoGeomatics Twitter](#) (10,561 followers)

[GoGeomatics YouTube Channel](#) (168 subscribers)

[GoGeomatics LinkedIn Group](#) (5,625 members)  
[GIS & Geomatics Jobs](#) (3,915 members)  
[Canadian Geospatial Community](#) (8,764 members)

**GoGeomatics** Canada Professional Meetup Groups  
 14 Cities across Canada (5500+ members)

## Our Promotion Partners

### Media Partners

GoGeomatics has many media partners both in Canada and around the world that we leverage to promote the event, and by extension, your brand and content. The GoGeomatics team will look to expand the number of media partners for 2022 with a dedicated relationship manager forging new alliances in the community.

### Associations & NGO Partners

GoGeomatics engages with some of the top associations in Canada to promote this event. We ask associations to post our events on their social media pages and send out an email blast to their subscriber or members lists with promotional materials for the event.

## To Participate Get in Touch

We'd love to have you be a part of what will surely be an exciting and informative event in 2022.

To register your organisation and purchase a package, or for any other questions and info, please contact Jonathan Murphy at [jmurphy@gogeomatics.ca](mailto:jmurphy@gogeomatics.ca)

Phone: 613-809-4091

## Two Great New Online Events for 2022

---

### Announcing the Virtual Lidar Commercial Expo 2022 (LIDARCOMEX April 5, 2022)

*A streamlined, business-to-business sales opportunity connecting premier 3D laser scanning technology vendors with practicing 3D professionals*

The **Lidar Commercial Expo 2022** is being offered by Lidar News and GoGeomatics Canada. It is a completely virtual B2B event matching lidar vendors with practicing 3D professionals from North America and beyond. The technology platform and format are based on Geolgnite, the highly successful Canadian geospatial conferences.

Registration is free. In addition to the first day of presentations, the following day will be available for workshops.

---

### Announcing the Virtual Subsurface Utility Mapping Strategy Forum Conference (SUMSF) Mar 22-23, 2022

Following the success of the Canadian Underground Forum at Geolgnite, the Subsurface Utility Mapping Strategy Forum (SUMSF) Mar 22-23, 2022 is a virtual conference intended to bring together individuals and organizations who wish to share information about and contribute to improving the mapping of underground infrastructure. The priority use cases for better underground mapping is reducing damage to underground utilities during construction and construction efficiency. Another use case that is rapidly gaining interest among utilities, telecoms, municipalities and even nations is subsurface digital twins. Digital twins of underground infrastructure are living models of real world objects and require a city-scale platform and tools that enable a large number of data providers and users including construction workers in the field, developers of analytics and simulations, and citizens to collaborate in maintaining and using the models.
